

Central Management System (CMS)

Moving forward with iNEX

G4S **iNEX CMS** facilitates efficient central monitoring of all cameras in branches from Head Office with highest reliability, and reasonable cost of operation.

World class compatibility migrates you toward the digital realm of video surveillance functionality of the **IP CCTV** using current **DVR's** based system.

iNEX CMS includes:

- ❖ Connect up to **1,024** DVR or IP Camera to **Monitor, Playback, Setup, Upgrade + Video/Audio Clip-Copy**
- ❖ Up to **64** simultaneous connections to the iNEX in the form of Monitoring stations (more than 16,000 cameras at the same time), Managerial use, Security Guards, Branch level etc. with different Security levels & Password per user
- ❖ **Video Analytics** multi-applications included
- ❖ Centralized event handling & health management
- ❖ **Two-way audio** communication
- ❖ Remote Device software upgrades & system setup
- ❖ Interactive Site **Maps** up to 64 with full functions
- ❖ IP Cameras recording up to 32 on-site (branch), plus 4 recording licenses on **CMS**

For each client of the 64 you will have up to 15 monitors:

- | | |
|-------------------|-----------------|
| 10 Monitors | 5 Monitors |
| • Live | • Event |
| • Playback | • Event History |
| • DVR Playback | • Reports |
| • Backup Playback | • Health |
| | • Status |

Compatible with all of **G4S** IP Cameras and DVRs plus 3rd Party cameras, including **ONVIF***

* Please contact us for details
